MOUNTING PLATE-10

A H: 5.57" W: 7.56" D: 0.225"

A/MOUNTING PLATE

B H: 5.25" W: 6.66" D: 0.32"

MOUNTING

The A/MOUNTING PLATE may be used to mount devices over a larger electrical enclosure or hole in the wall. It is made up of a plastic material and contains numerous mounting holes to match most of the standard electrical boxes used in the industry today. It may be mounted either vertically or horizontally. The MOUNTING PLATE-10 is slightly larger than the standard A/MOUNTING PLATE and is made from 20 Gauge Commercial Steel.

The LOCKING COVER can be used to protect a room mounted enclosure from physical damage or tampering. It comes with a clear vented cover and two keys.

The ACI MOUNTING PLATE and LOCKING COVER are covered by ACI's Five (5) Year Limited Warranty, which is located in the front of ACI's Sensors & Transmitters catalog or can be found on ACI's web site, which is: www.workaci.com.

Made in the U.S.A.
