- Features and Benefits
- Open-head design with easily detectable slot opening allows for swift and easy insertion
 - Pre-lock feature allows for a temporary hold
 - The large ribbed tail permits an ergonomic installation
 - Two rails on the strap ensure guidance through the cable tie head

Product Description Q Ties have a distinctive open-style head, a pre-lock function, and a large ribbed tail. The easily detectable slot opening offered with the tail and tie head offers ease of placement especially when working with gloves is necessary or for blind applications with limited view of the installation. The pre-lock feature allows for temporary holding of cable and wire bundles, permitting additional cables and wires to be placed without destroying the cable tie. Q Ties can be tensioned by hand or with one of HellemanTyton's mechanical cable tie application tools.
