Features and Benefits

- Unique two piece tie allows parallel entry and exit through the head for easy assembly.
- High impact, heat stabilized material gives strength needed for trucking and heavy equipment applications.

Product Description The button head tie is a two piece tie providing for parallel entry and exit through the head. The strap contains serrations on both sides, and has two opposed pawls recessed within a domed head. This design allows the strap to be directed clockwise or counter-clockwise prior to insertion into the head, enabling bi-directional looping.
