- Features and Benefits**
- Separates bundles to help prevent chafing and wear.
 - Single bundles can be mounted on top of the mount, or two bundles can be separated using the two side saddles; giving the mount versatility.
 - Low profile design allows mount to be placed in areas where space is limited.

Product Description Low Profile Mounts secure bundles close to mounting surfaces, making them ideal for applications where bundle mounting space is limited. These are secured with a .25" mechanical fastener, and have a counter bore for easy access with a socket which can be torqued up to 100 in/lbs. The mount accommodates cable ties up to .5" in width.
