Base Data

Local Order Number	156-01093
Type	T50RLOC10-14
Color	Black (BK)
Features and Benefits	• The 360 degree enclosure ensures the entire bundle is secure when being routed by this clip. • Locking tab on this clip is small enough that it will not interfere with any other portion of the wire routing, but is significant enough to allow for manual disengagement if service is needed. • The cable tie portion of this two-piece design allows for 2 wire bundles to be routed with the same piece.
Product Description	HellermannTyton's Two-piece cable tie assembly offers dual bundle routing. The omega clip portion creates a full and secure lock completely around one bundle, while the cable tie creates a secure solution for a second bundle.
