Mechanical Vertical Snapper Hose Clamp Tool for Snappers 1-70

Base Data

Local Order Number MSNP1-70

Type MSNP1-70

Color Yellow (YE)

Features and Benefits Snapper installation tools are available in both pneumatic and mechanical versions. They are specifically developed to increase reliability, reduce operator fatigue and installation time.

Product Description The ASNP and MSNP snapper tools are used for the material-protective and efficient fixing of the snapper. While the smaller MSNP tool is employed in case of snapper installation on site (ideal for fitters), the ASNP tools offer particular advantages in series production. By means of an attachment screw, the draw-in area can be limited, by which an overstretching of the snapper is prevented.

Short Description Mechanical Vertical Snapper Hose Clamp Tool for Snappers 1-70
